

Town of Collbran

1010 High Street
PO Box 387
Collbran, CO 81624

Phone: 970-487-3751
Fax: 970-487-3380

Demolition Application Requirements

Before demolishing any property within the Town of Collbran, a demolition permit application must be approved by the Town Planner and Town Administration BEFORE applying with Mesa County.

Per state regulation, *anyone* doing a demolition project must get a permit from not only the local municipality, but also the state before deconstruction. Part of this permit includes an asbestos inspection. A copy of the asbestos report must be presented before demolition debris is brought to the landfill. If the report indicates that asbestos is in the building, we need proof that the asbestos has been removed. It does not matter how old (or new) the building is. The only time we do not need to see an asbestos report is if the debris is coming from brand-new builds or if someone is bringing out roofing shingles only.

Special waste

All special waste must be approved by the Regulatory Compliance Manager before coming to the landfill, and special handling fees apply. The Regulatory Compliance Manager can be contacted by calling the landfill at (970) 241-6846 or emailing us at web-solidwastemanagement@mesacounty.us.

- Contaminated soil - \$50 per Ton
- Non-friable asbestos - \$50 per Ton
- Friable asbestos - \$60 per Cubic Yard
- Demolition debris - \$45 per Ton

Please call Town Hall (970)487-3751 with any questions or concerns.
